

KNOW YOUR BIOMARKER

QUESTIONS TO ASK YOUR HEALTH CARE TEAM

These questions are a guide for discussing biomarkers and biomarker testing with your health care team. If you have caregivers or family members attending your appointment, bring extra copies of this guide so they can follow along and write notes too.

Have I had biomarker testing? If yes, what are the results? If not, when will I have biomarker testing? _____

What biomarkers will I be tested for? _____

How does biomarker testing work? What is the procedure like? Are there any potential risks involved in the testing? _____

How long will it take to get the results? _____

How do my biomarker testing results affect my treatment plan? _____

Do my biomarker testing results mean I could participate in a clinical trial? _____

Do my biomarker testing results show that my family members are at increased risk for colorectal cancer? _____

How do I get a copy of my biomarker testing results? _____

Will I have to pay for biomarker testing? If so, are there financial assistance programs available to help pay for biomarker testing? _____

Is there anything else I should know about biomarkers? _____

The Global Colon Cancer Association thanks the following sponsors for their support of this campaign:
